

Your Help Is Needed

Part of my extended family lives right outside of Atlanta, Georgia. They have a huge parish with 1200-1500 people attending each of six Masses. Their weekly collection is around \$70,000/week. There are several priests and slightly more deacons, with many lay employees. But despite all of this, their parish cannot function without [VOLUNTEERS](#).

[Volunteers](#) bring the parish alive, while those working for the parish provide the necessary support. There isn't a single parish that can survive without [Volunteers](#).

Some of our current [Volunteers](#), in light of pandemic shutdown and the enormous amount of time donated to the parish, decided to step aside to allow fresh ideas. In addition, many, not all, of our volunteers are age 70 to 93.

Two books came to an end on July 1st of 2020, Transfiguration and Saint Victor Parishes. These two books were written by God through the work of many [Volunteers](#) at each parish. These parishioners were busy, with much of the housework inside and out being done by hand, and yet they found time to [Volunteer](#).

July 1st of 2020 opened a new book entitled *Our Lady of the Lakes Parish*. No one can deny there are challenges today, busy people. However, are we busier than parishioners of the former Transfiguration and Saint Victor Parishes?

Whether you like it or not, you have become a part of the history of *Our Lady of the Lakes Parish*. God is prepared to begin writing through the work of many [Volunteers](#) at this parish. [What a beautiful story that can be written by God through each one of us!](#)
